Cincinnati and Charleston Rail Road. Acts having now been passed by the Legisla. tures of all the States through which this road is expected to pass, incorporating a company for constructing it, the next movement will probably be with a view to ascertain the best route and the probable expense. The Legislature of South Carolina made an appropriation of \$10,000 for this purpose, and appointed the following commissioners for carrying the object of the appropriation into effect ; viz : Gen. Hayne, Col. Bland ing, Hon. Patrick Noble, Gen. Thomas F. Jones of Laurens, Dr. Thos. Smith of Society Hill, and Mr. Charles Edmonston of Charleston. We learn from a communication in the Charleston Courier, that the Commissioners were to hold a meeting in Columbia on Friday last.

We have received the March number of the Knickerbocker. From a glance at the table of contents, which is all we have had time yet to do, we think the present number fully sustains tho character of the work. We see that among the contributors to the work is Mr. Flint , the popular author of "Ten years in the valley of the Mississippi," and other equally popular works. We shall publish the table of contents next week.

A letter received in Raleigh, N. C. dated Wilksborough, March 10, states that the small pox in that region of country was confined to 6 or 8 families in Wilkes and Ashe counties; and that having gone through these families, it was thought it would cease, as no others had visited them.

At the commencement of the Medical College of the State of South Carolina, on the 16th inst. the degree of Doctor of Medicine was conferred on 46 young gentlemen, who had attended the lectures in that institution. The whole number of students the past winter was 126. This respectable young Institution has had difficulties to encounter, but has surmounted them and will no doubt continue to prosper.

The bill for increasing the Banking Capital of Virginia, has been lost in the House of Delegates.

We see by the Congressional report in the National Intelligencer, that Mr. Newland who claims the seat of Mr. Graham from North Carolina, in the course of his speech at the bar of the House declared himself an unwavering friend of the present administration. For this he was called to order, as introducing matter not relating to the question, but he was permitted to proceed by a vote of the House. Mr. Newland was no doubt aware that this was the real question upon which his success is to depend. The House have refused the sitting member further time to collect testimony by a vote of 87 to 103.

From some statistics of mortality published in the Baltimore Patriot, it appears that the deaths among the free black population of that city during the last year were about one in thirty-five; and those among the slaves one in forty eight.

Here is a lesson for the abolitionists, if facts could teach them wisdom. The number of deaths among these two classes of our black population, in the same community, is a very accurate index to their comparative state of comfort and happiness. The proportion of deaths among the slave and white population was nearly the same.

The London Public Ledger says that it is in ontemplation to form a canal between Liverpool and Manchester, parallel with the famous railroad. "This undertaking owes its origin (it is said) to the unprecedented success, in point of despatch and cheapness, of the light passenger boats on the Scotch canals, between Paisley, Glasgow and Edinburgh, and the invention of a new apparatus for passing light boats rapidly up and down the ascents and descents of canals without loss of time or expenditure of water."

It is now found that light iron boats carrying from 100 to 150 passengers can be conveyed on canals by two horses at the rate of 10 or 12 miles per hour. It is estimated that travellers can be carried by canal, from one town to the other, a distance of thirty-two miles, at from 17 to 20 pence; or considerably less than half a dollar.

A Noble Act .- We have heard of many pleasing incidents connected with the late severe disaster which befel the Methodist Episcopal Church, in the destruction of their "Book Concern," by fire, yet we know of no one which has given more general satisfaction than the act of the American Bible Society. Knowing that the Sabbath Schools under the care of the Methodist Church would be great sufferers by the destruction of the Scriptures intended for their use, the Board of Managers of the American Bible Society, at their regular meeting last evening unanimonsly voted a donation of Five thousand Bibles, and ten thousand Testaments, for the use of the schools under the care of the Methodist Episcopal Church. - Commercial Advertiser.

Baltimore, March 16. It is with a feeling of the greatest pride and satisfaction that we announce that the question whether the Baltimore and Ohio Railroad is to be completed to the Western waters is no longer doubtful. Both branches of the City Council, with a promptness which does them the highest credit, yesterday evening adopted the resolution authorizing a subscription, on the part of the city of THREE MILLIONS OF DOLLARS to the stock of the company. This subscription, with the aid which will cortainly be received from other quarters, insures the completion of the road. Baltimore will now proceed with steady, unfaltering step in her march to commercial greatnes and
